

Pembrokeshire County Council Catering Services will be installing the Cashless Biometric System at Henry Tudor School this term. This system will allow pupils to pay for school meals by scanning their finger at the till instead of their Cashless Catering card.

Further information on the Cashless Biometric System can be found at www.pembrokeshire.gov.uk/cashless-how-to-pay

Pupils can only sign up to the Cashless Biometric System with their parent/guardian's consent. If you would like to register your child to the Cashless Biometric System please read and complete the Biometric Consent Form.

The Catering Team will be capturing pupils' biometric data at the school on 12/12/2023. Your child will need to bring their completed consent form to this session in order to register on the system. If your child is unable to attend this session they can bring their consent form to the canteen office on any other date and a member of the canteen staff will then register them.

Please email cashless.catering@pembrokeshire.gov.uk with any queries regarding the Cashless Biometric System.
